REPORT ON 8TH ASEAN UNIVERSITY GAMES 19 - 25 JUNE 1994 - SINGAPORE

I. INTRODUCTION

At the 15th Asean Univeristy Sports Council meeting held on 27 November 1992 in Shah Alam, Selangor Darul Ehsan, Malaysia, Singapore was given the mandate to host the 8th Asean University Games.

Having hosted the 4th Asean University Games in Singapore in 1986, the 8th Asean University Games in Singapore would be Singapore's second occasion to host this event.

II. 16TH ASEAN UNIVERSITY SPORTS COUNCIL MEETING

In accordance with the requirements of the Asean University Games constitution, Singapore hosted the 16th Asean University Sports Council meeting on 2 April 1993 to deliberate on matters pertaining to the 8th Asean University Games.

The Council meeting was attended by representatives of all the Asean countries except Philippines. The Council agreed to Singapore's proposal to host the 8th Asean University Games from 19 to 25 June 1994 and the games to be played were:-

- | | | | | |

| 8. | Septak Takraw | (Men) | } | sports |
| 9. | Biathlon | (Men & Ladies) | } | exhibition sport/ |
| 10. | International Chess | | } | activity |

The Council also agreed upon the following:-

- i) The financial commitment per athlete per day for board and lodging is US\$18.00 and US\$20.00 per observer per day.
- ii) Participating Nations will submit their entries as follows:-

- Entries by Games and Events:

twelve weeks before the Opening of the Games.

- Entries by Numbers :

eight weeks before the Opening of the Games.

- Entries by Names :

twenty-one days before the Opening of the Games.

III. ORGANISING COMMITTEE

Immediately after the 16th Asean University Sports Council meeting, a committee was formed to organise the Games. Dr Tan Eng Liang, who chaired the Organising Committee of the 4th Asean University Games was again invited to head the Committee. Other members of the main Organising Committee were mainly staff from the two Universities with the exception of Supt. Seng Kuan Meng who chaired the Security Sub-Committee and Mr Henry Tan of the ECA Centre who chaired the Ceremonies Sub-Committee.

Besides the main Organising Committee, many experienced officials from the Singapore National Olympic Council, Singapore Sports Council and National Sports Associations were invited as Advisors for the various Sub-Committees.

SECRETARIAT

The biggest problem the Secretariat faced was with entries from participating nations. Although a time frame was provided for the various forms of submission, some foreign contingents submitted their individual participation forms only when they arrived in Singapore. The late submission had put on tremendous pressure on the production of the Track and Field and Swimming programme. It had also resulted in a delay in the preparation of identification cards for participants and officials.

In addition to the above problems, some entries were received with illegible handwriting which were made worst via fax. This is an area where all participating nations must cooperate so as not to create inconvenience to the hosting nation.

For the 8th Asean University Games, there were more than 900 participants and officials with 300 members of the Organising Committee. The breakdown of which is tabulated:-

COUNTRY	OFFICIAL	ATHLETE	OBSERVE R	PRESS	TOTAL
BRUNEI	4	27	-	-	31

V. ACCOMMODATION

As far as hosting the Asean University Games is concerned, Singapore is rather fortunate that there are excellent students hostels in both the Universities. The National University of Singapore (NUS) has six student hostels which can accommodate 2,700 students and Nanyang Technological University has 11 student hostels with a total capacity for almost 6,000 students.

For the 8th Asean University Games, the Organising Committee decided to house the participants at the NUS hostels because of its close proximity to town. In this way, participants who had completed the Games or were free on non-match days were able to do some shopping easier.

During the 8th Asean University Games some 985 rooms were utilised to house the participants. The Chef-De-Mission of all participating countries as well as Council members were housed at the Visitors' Lodge. The allocation of the halls for the participants and officials were as follows:-

RAFFLES HALL: Indonesia, Brunei and 20 Singapore Officials

BLOCK	SINGLE ROOMS	DOUBLE ROOMS	TOTAL ROOMS
RH 2	26	26	78
RH 4	26	26	78
RH 6	26	26	78

VI. TECHNICAL & COMPETITION

The competition programme for the 8th Asean University Games went on smoothly without a hitch. All the competition with the exception of Soccer were held at the sports facilities of both the National University of Singapore and Nanyang Technological University.

Much travelling time was saved as the hostels that the participants stayed were overlooking the sports facilities with the furthest less than 3 minutes walk from the venue.

Biathlon which was initially planned as an exhibition event was subsequently dropped from the programme as we did not receive entries from the participating nations.

For this Games, Thailand gave an excellent performance by winning not only the most gold medals but also the most total medals at the end of the Games. The detailed results for all the games played are enclosed herein.

8TH ASEAN UNIVERSITY GAMES

19 - 25 JUNE 1994

SINGAPORE

There's always been this kid in you. First you bought the mountain bike. Then you bought the skis. And in short order came the rackets, golf clubs, surf board, and only-your-credit-card-bills-know-what-else. And like any normal child, you want to take all of them everywhere. Easy. Lift the hatch of the Astra Estate, fold down the rear seats, tie the rest on the roof rack and off you go. And if, in the future, you get the urge to procreate, well, there's still plenty of space for your offspring. But for the time being, a pair of scuba tanks will fit there nicely.

YOU DON'T NEED
TO HAVE CHILDREN
TO BUY IT.
JUST *a LOT of* TOYS.

***MINISTER FOR EDUCATION
SINGAPORE***

The Asean University Games has brought together young men and women from universities in the member countries for the eighth year. This is a reflection of the friendship and cooperation within Asean.

The development of Asean is founded on mutual understanding and collaboration for the common good. The Asean University Games embodies a recognition of the extent our countries and our people are interdependent. Your participation in the Games is not only an excellent opportunity to engage in friendly competition in the sporting arena, it is also a chance to make new friends and to share in the cultural vibrance of the region. The bonds and ties forged in the Games will, I am sure, add to those valuable experiences which will prepare you to be future dynamic and committed leaders in Asean.

I congratulate the organisers for their effort in organising the Games and wish all participants good fellowship, and a successful and memorable season.

GREAT CAMERA GREAT PICTURES

Now taking great pictures is just a matter of pushing buttons.

Nikon designed the F50 based on the concept "an SLR camera that even beginners can use without effort". At the same time, Nikon also included advanced features such as Focus Tracking, 3D Matrix Metering using a six-segment Matrix sensor (with D-type AF lenses) and Matrix Balanced Fill-Flash to enable every F50 user to enjoy great pictures.

The F50's intelligent push-button operation combines with an easy-to-read Dot Matrix LCD

panel to make picture-taking both simple and fun, yet always with end results the photographer will be proud to show. For SLR beginners, pushbutton operation is easier to understand than conventional command dial operation.

The Dot Matrix LCD shows by Dots not only letters and numbers but also pictures. This allows the flexible design of letters, numbers and picture symbols. Also, the display is big and easy to see. The F50 is the first camera to use this display system built in.

The Nikon F50 offers a choice of two basic shooting modes - SIMPLE AND ADVANCED. Simple mode is designed for SLR beginners, so it does not include program modes that require some photographic

knowledge or experience to use effectively. In

this mode, indications in the viewfinder LCD are kept as simple as

possible-without numerical value indications. Also, only a maximum of four programs can be shown at one time in the LCD panel to assure simple one-push operation. Advanced mode is designed to satisfy photographers who want to express their own creativity in their photographs. In this mode, there are four more programs in addition to four offered in the SIMPLE mode. The program lines of the four programs offered in both modes are the same but the ADVANCED mode allows Flexible Program with the General-Purpose Program, Exposure Compensation for exposure variety, etc..

If any 35mm SLR camera can lay claim to being a "Shortcut to Great Pictures", The Nikon F50 is it.

***PRESIDENT
ASEAN UNIVERSITY SPORTS COUNCIL***

On behalf of the Asean University Sports Council and the Organising Committee for the 8th Asean University Games 1994, I would like to welcome all delegates, participants and officials to Singapore for the Games.

It is my sincere hope that this games series will not only provide a platform for the Asean Universities undergraduates to interact in friendly competition but also an opportunity to make friends and build up a strong friendship base which augurs well for Asean.

The participants have much to learn from each other and the programme of activities organised for the visitors will help them bring back fond memories of their stay in Singapore.

I would also like to place on record my appreciation and thanks to the Asean University Sports Council members for the support they have given me during my term of office.

May I wish all of you a happy stay in Singapore.

***VICE-CHANCELLOR
NATIONAL UNIVERSITY OF SINGAPORE***

On behalf of the National University of Singapore, I have great pleasure in welcoming all officials and participants to the 8th Asean University Games 1994.

As the participants for the Games will be housed at the Games Village at the National University of Singapore, I do hope that they will find comfort and convenience in the hostels and treat the Village as their home away from home.

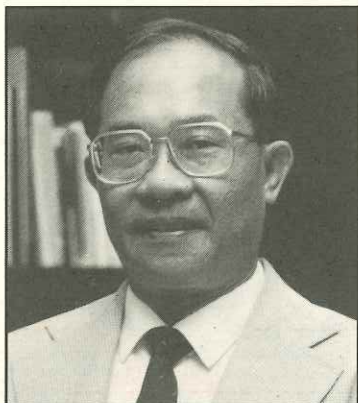

The participation in this games competition provides a platform for the promotion of goodwill and understanding. Let friendship be built on and off the fields of competition.

I wish you all a successful and enjoyable stay in Singapore.

***PRESIDENT
NANYANG TECHNOLOGICAL UNIVERSITY***

It has been a good eight years since Singapore last hosted the 4th ASEAN University Games in 1986. I would like to commend the Organising Committee for undertaking the immense task of once again hosting the 8th ASEAN University Games 1994. To host an event of such a great stature is indeed an honour.

As host, I have no doubt that the organisers will, to their utmost ability, ensure that all our participating ASEAN friends feel at home in Singapore.

The few days of competition will pass all too quickly, but it is my hope that the close ties and goodwill fostered through the Games will remain within the hearts of all involved in the Games.

Khong Guan's Solid Gold Performances

Khong Guan Biscuit Factory (S) Pte Ltd has received many Monde Selection gold medals since 1981 which represent the highest international accolade of quality.

But to meet the growing world demands, Khong Guan has to provide much more than just quality products.

There is the constant research into improved quality control, better recipes, new product lines and innovative packaging design to keep up with changing trends.

Most important of all, there is the company's business philosophy of providing quality products at a reasonable price.

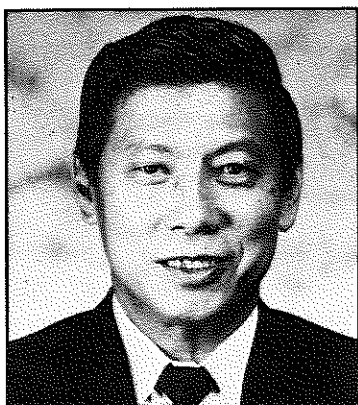

All round, Khong Guan is a solid gold performer.

***CHAIRMAN
ORGANISING COMMITTEE
8TH ASEAN UNIVERSITY GAMES 1994***

On behalf of the Organising Committee of the 8th Asean University Games 1994, I would like to extend a warm welcome to all the participating teams to Singapore and wish them an enjoyable stay here.

Both the National University of Singapore and the Nanyang Technological University have put in much effort during the last 10 months in making preparations for this Games. Whilst the athletes from all the participating countries have put in many hours of training to be selected for this Games, we must not forget the large number of student volunteers and officials who are helping to organise the Games.

Asean is a symbol of goodwill and understanding amongst its members, let all the athletes for the 8th Asean University Games 1994 participate in the same spirit and goodwill.

BASKETBALL

1. DATE AND VENUE

The basketball tournament of the 8th ASEAN University Games will be held at the Nanyang Technological University (Jurong & Bukit Timah Campuses) from 20th to 24th June 1994.

2. ORGANISATION

The Competition Sub-Committee of the 8th ASEAN University Games will be responsible for the technical organisation of the tournament. The decision of the Sub-Committee in all matters regarding the tournament shall be final.

The Chairman of the Technical Sub-Committee will chair the Jury of Appeal comprising of representative from each of the participating nation.

3. LAWS OF THE GAME

- 3.1 All the matches shall be played in accordance with the existing Laws of Game as approved by the International Basketball Federation (FIBA).
- 3.2 In case of disagreement in the interpretation of the Rules, the English Text of the FIBA shall prevail.
- 3.3 Unforeseen incidents not covered by the Rules shall be dealt with as follows:
 - 3.3.1 Cases of a general nature will be resolved in accordance with the Constitution of the ASEAN University Sports Council and the General Rules of the 8th ASEAN University Games.
 - 3.3.2 Technical questions will be resolved in accordance with the Rules of the FIBA.

4. EVENTS

There will be Men's team and Women's team events.

5. ENTRIES

- 5.1 All entries must be submitted in accordance with Article 2 of the 8th ASEAN University Games General Rules.
- 5.2 Each nation can enter a maximum of one men's team and one women's team. Each team may register not more than 12 players.

6. RULES OF COMPETITION

6.1 Preliminary Round:

- 6.1.1 The method of competition shall depend on the number of entries.
- 6.1.2 If there are three (3) teams, a double round Round Robin shall be adopted.
- 6.1.3 If there are more than five participation teams, the teams will be divided into two groups; if not the teams will play in one group.
- 6.1.4 All teams in each group will play a single round league.

6.2 Classification of teams:

The classification of teams shall be made on points according to their win-loss records, namely 2 points for each game won, 1 point for each game lost, and 0 points for a game lost by forfeit.

- 6.2.1 If there are two teams equal in this classification, the result(s) of the game(s) between the two teams involved will be used to determine the placings.

In the event that the total points scored and conceded are the same in the games between the two teams, the classification will be determined by goal average taking into account the results of all the games played in the group by both teams.

- 6.2.2 If more than two teams are equal in the placings, a second classification will be established, taking into account only the results of the games between the teams that are tied.

In the event that there are still teams tied after the second classification, then *goal average*, taking into account only the results of the games between the teams still tied, will be used to determine the placings.

If there are still teams tied, the placings will be determined using *goal average* from the results of all their games played in the group.

If at any stage, using the above criteria in 6.2.2, a multiple team tie is reduced to a tie involving only two teams, the procedure in 6.2.1 will automatically be applied. If it is reduced to a tie still involving more than two teams, the procedure beginning with the first paragraph of 6.2.2 is repeated.

Goal average will always be calculated by division.

For 6.2.3 Exception, please refer to the official basketball rules adopted by the International Basketball Federation (FIBA) pg 78-82 or the 8th AUG Technical Handbook (Basketball)

6.3 Substitution of players:

Service Information

MRT (Mass Rapid Transit)

The Singapore Mass Rapid Transit (SMRT) system is an electrically-driven railway system. The 67-kilometre MRT system has 42 stations; 15 underground, 26 elevated and 1 at ground level. There are 2 main lines - the north-south line from Yishun to Marina Bay and the east-west line from Pasir Ris to Boon Lay. A western branch extends from Jurong East to Chua Chu Kang. Payment for the service is through the Transitlink farecard or a single trip ticket. Single trip station to station fares are displayed above the vending machine. If you are using the Transitlink farecard the correct amount will be deducted automatically at the ticket gate. At the end of the trip, single trip ticket will be retained by the gate. Farecard, commemorative tickets and tourist tickets will be returned to the passengers. The remaining value of the card will be shown on a window at the top of the gate. If your ticket is rejected by the gate, go to the station control room. There is a time limit on MRT travel. If you exceed the time allocation you will need to pay an administrative charge of S\$2.00.

Transitlink

The Singapore Bus Service (SBS), Trans-Island Bus Services (TIBS) and the Singapore Mass Rapid Transit (SMRT) are integrated to form Transitlink.

Fare integration with the Transitlink Farecard provides passengers with a single cashless mode of payment through a common ticketing system for both buses and the MRT. The farecard also brings cost savings to transferring passengers in the form of transfer rebates.

The Singapore Explorer Ticket **(for buses only)**

This is a simple and convenient fare system for tourists to get around Singapore on public buses. With each ticket, the user is entitled to unlimited travel island-wide on SBS and TIBS buses. Priced at S\$5 for a single day ticket and S\$12 for a three day ticket.

MRT Tourist Souvenir Ticket **(for MRT only)**

Priced at S\$6 each, the ticket is a stored value ticket which allows you to enjoy rides on the MRT minus the hassle of changing coins each time you make a trip. After you have taken the last ride, you get to keep the ticket as a souvenir of your visit to Singapore.

Should the fare of the last trip that you take exceed the remaining value in your ticket, all you have to do is to approach the staff at the control station to pay the difference. The company however does not provide refunds for any remaining value on the ticket.

The MRT Tourist Souvenir Ticket, which is valid for a period of 120 days from the date of purchase, can be purchased from some leading hotels and at Transitlink Sales Offices at the following MRT stations:

E1	Bugis
W1	Tanjong Pagar
W2	Outram Park
C2	City Hall
C1	Raffles Place
N1	Dhoby Ghaut
N2	Somerset
N3	Orchard

Bus Services In Singapore

The two main bus operators in Singapore are SBS Bus Service and Trans-Island Bus Services. For cash-paying passengers, drop the exact fare into the farebox (no change will be given). Fares can also be paid with the Transitlink Farecard. Bus tickets will be issued on all trunk services and flat fare services.

Travel from NUS to Buona Vista MRT station

Bus Service No. : 95, 200

Bus No. 95 and 200 links the NUS to Buona Vista MRT station. Bus Service No.200 operates from NUS (Kent Ridge) bus terminal to Buona Vista MRT Station at an average frequency of 20 minutes. Alternatively you can take Bus Service No. 95 from Lower Kent Ridge Rd. to Buona Vista MRT Station. Average frequency of the bus is 8 minutes.

Travel from NTU to Boon Lay MRT station

Bus Service No. : 199

With a large fleet of taxis, Singapore's taxi service is one of the cheapest in the world. It is reasonably easy to catch a cab. Each taxi is licensed to hold up to 4 passengers.

Capacity: 4 adults or 2 adults with 3 children (under 7 years old).

The charges for a taxi ride are as follows:

S\$2.40	For the first 1 Km
\$0.10	For subsequent 225m

There will be a surcharge of S\$3 if you enter the CBD (Central Business District) area during the following times:

Weekdays	10.15am - 6.30 pm
Saturday	10.15am -3.00 pm

In addition, there will be a surcharge of S\$3 if you are taking a cab from the airport.

Dial-a-cab service is provided by the individual taxi companies. Dialling a cab will come with an extra surcharge of S\$2, while booking a cab costs S\$3.

Taxi services here also come with an extra 50% surcharge after midnight.

Listed below are some of the taxi companies that provide Dial-a-Cab services :

NTUC Comfort	4525555
Tibs	4811211
Singapore Commuter	4747707
SBS Taxi	1800-2827700

MESSAGE

It gives me great pleasure to congratulate all the undergraduates who have been selected to represent Singapore at the Eighth Asean University Games 1994. You are outstanding sportsmen and we are proud of your achievements. I have no doubt that you will do your best at the Games.

I also take this opportunity to remind all of you to ensure that your counterparts from the region enjoy their stay in Singapore. May the Eighth Asean University Games 1994 bring happy memories for them and for you.

MESSAGE

It gives me great pleasure to welcome all athletes and officials of the participating countries to Singapore.

An event like the Asean University Games often comes with its educational values and opportunities to broaden one's horizon.

In the exchange of knowledge and ideas throughout the Games, it is my hope that we will continue to enhance the spirit of goodwill and comradeship that we hold so dear.

For all participating athletes, may I wish them satisfactory achievement in their events thereby resulting in reaching greater heights of performance in the sports arena in ASEAN in general.

MESSAGE

I would like to welcome all the participants to the 8th AUG.

These games have become a regular feature in the calendar of sporting activities amongst Asean universities. The Organising Committee for the present games has worked hard to make the 8th AUG a success. It is my fervent hope that all the undergraduates of both NUS and NTU will lend their support to the combined contingent and spur them to success.

Best of luck to all the participants. I hope you display true sportsmanship, enjoy yourselves and take back with you pleasant memories of this occasion.

Tertiary education extends beyond the pursuit of academic excellence. It encompasses the cultivation of moral and social character of University students and prepares them for life in the real world.

The ASEAN University Games provides a unique opportunity to participants to add an international dimension to their tertiary education. More importantly, it helps to further foster goodwill and strengthen friendship amongst ASEAN University students.

I wish the contingent every success.

MESSAGE

The Asean University Games have always served the purpose of providing precious opportunities for top sportsmen and sportswomen pursuing higher studies in this region, not just to compete, but also to foster long lasting friendships with one another.

This year, the 8th Asean University Games will take place in Singapore. This also provides a rare opportunity for our students to witness how our own participants will fare when they pit their strengths and skills against those from the neighbouring nations.

I am sure that all participants have trained hard for this occasion, and the competitions ahead will be keen and exciting. It is my sincere hope that all the events will be contested in good spirit, and that all officials and participants will have a good time as well as pleasant stay in the Games Village at the National University of Singapore.

Chen Chuan Chong.

Eighth Asean University Games 1994

Established by an Act of Parliament on 1 July 1991, the Nanyang Technological University (NTU) has its origin in the former Nanyang Technological Institute (NTI) which was set up in 1981. The NTI was reconstituted as a full university, the NTU in July 1991. At the same time, the National Institute of Education (NIE) was established as part of NTU.

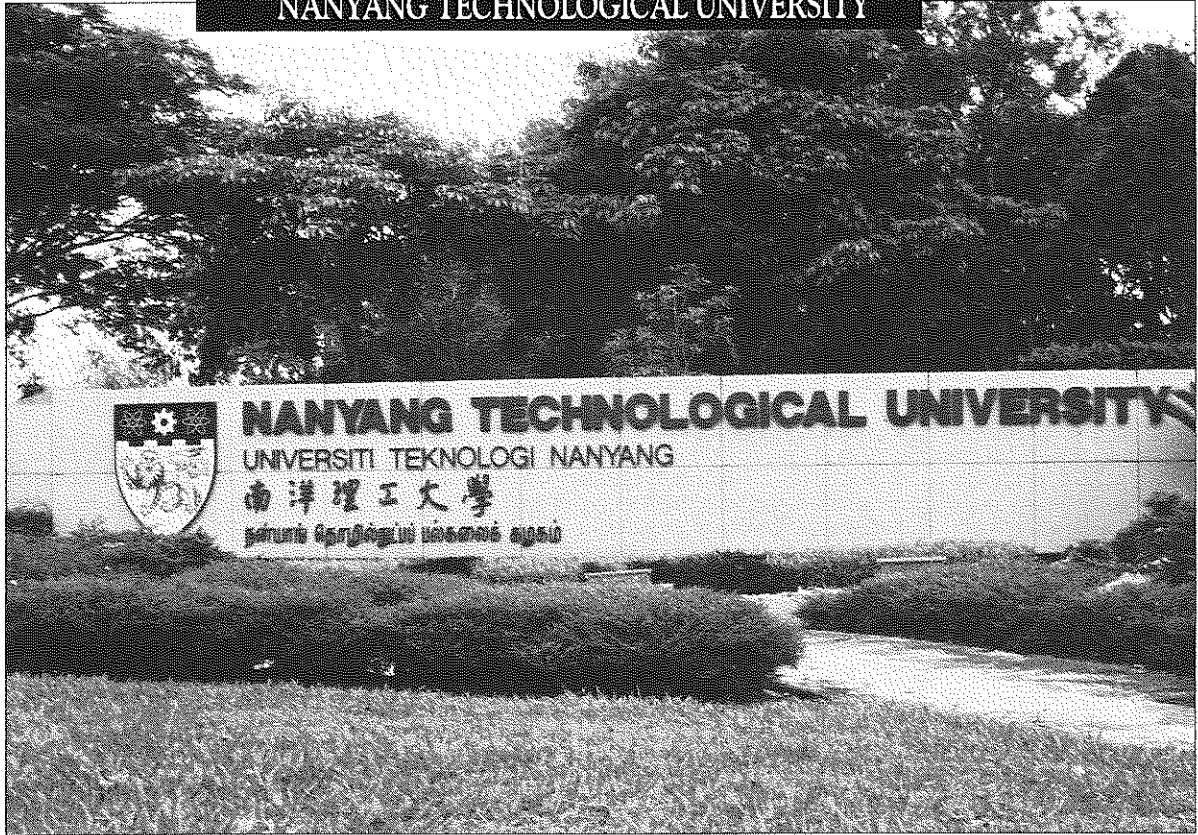

The University has two campuses. Located in the western part of Singapore some 25 km from the city centre, the main campus in Jurong is 200-hectare in size. Part of the campus was built in 1986. It consists of the North Spine and the South Spine. The North Spine has four "fingers" branching from it, each housing one School. The South Spine is a new spine with also four "fingers" and houses the School of Electrical & Electronic Engineering and the School of Accountancy and Business. This new spine was constructed to meet the requirements of the rapid growth of NTU, which is expected to increase from the current enrolment of 9,900 to 14,000 by 1996.

In conjunction with this, the building of 4 additional hostels have just been completed recently, thus making a total of 11 hostels to meet the increment in the student population. These new hostels will be opened to the students in the academic year '94-'95. A 6-storey Administration Building stands majestically at one end of the North Spine while the main Library building occupies the other end of the spine.

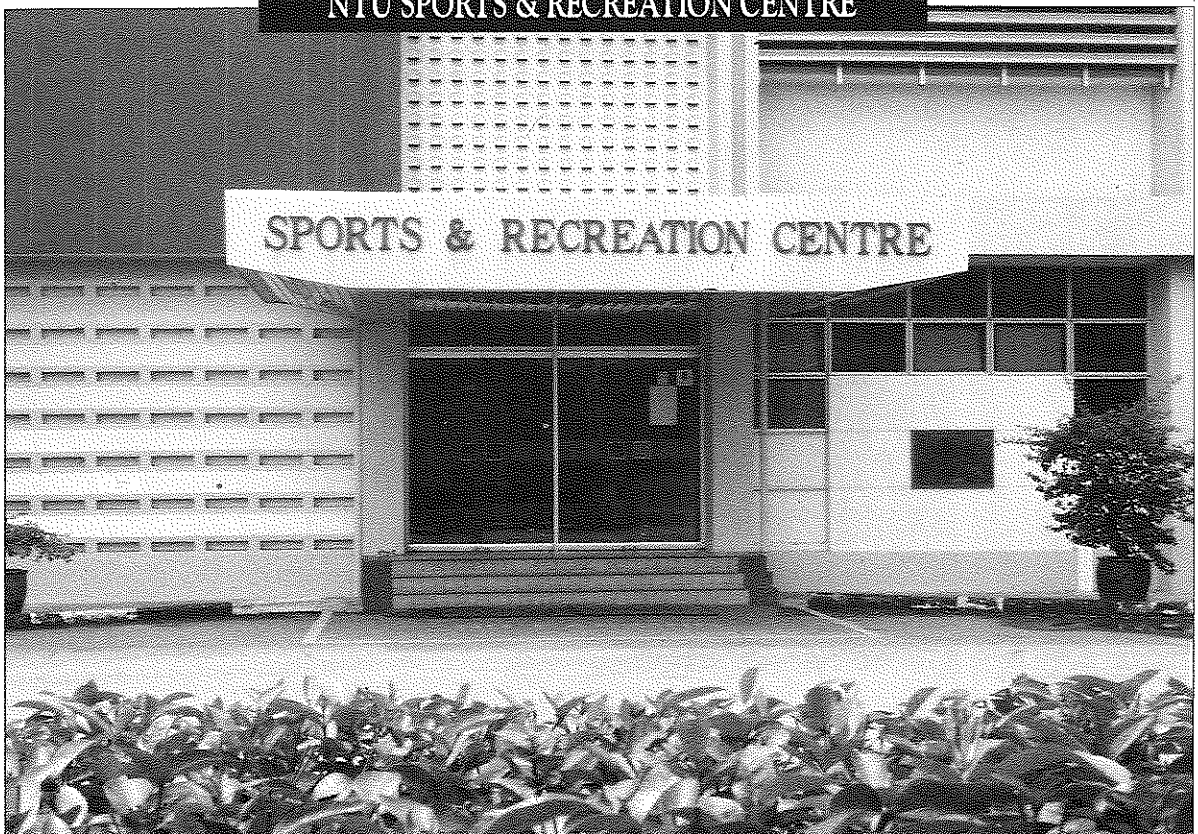

NTU's second campus is occupied by the National Institute of Education, and is presently located at Bukit Timah Road. Plans are being made for the building of new facilities in Jurong main campus to accommodate the NIE when it relocates to the main campus in 3-4 years' time.

Modelling itself on an American-British hybrid degree structure, the University is organised into Schools, each headed by a Dean. Each School is further divided into smaller administrative units known as Divisions.

The principal executive and academic officer of the University is the President. He is assisted by the Deputy President, Deans of Schools, Registrar, Bursar, Director of Personnel, Director of Student Affairs and Heads of other administrative departments. The National Institute of Education has a Director who reports to the President and is responsible for the day-to-day running of the Institute.

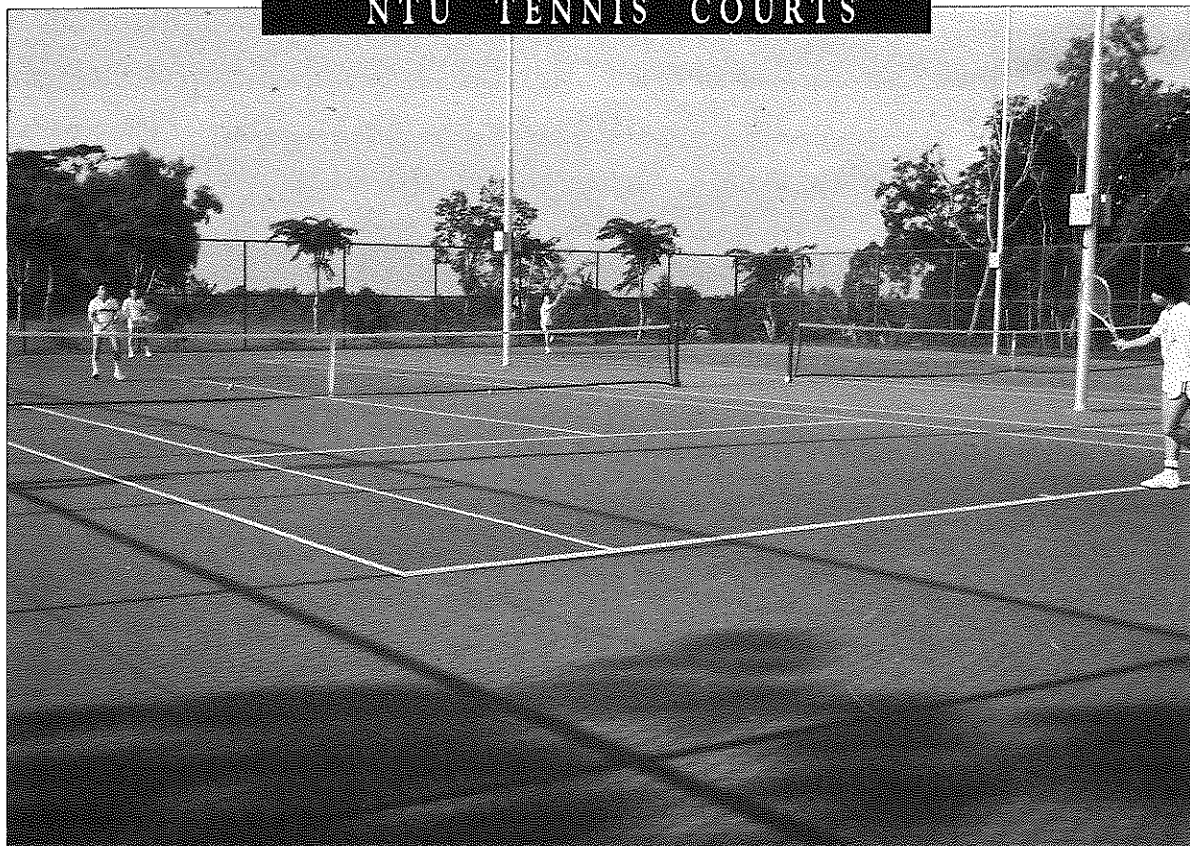

NTU aims at becoming a university with general academic excellence and niches of international eminence. Its mission is to train leaders, professionals and entrepreneurs for Singapore and to advance research and development in both the academic and professional disciplines.

Each School has an advisory committee, with membership drawn from industrialists, business leaders, senior government officers and academic staff. These committees not only serve as effective channels of communication but also provide a good sounding board for the introduction of new courses by the Schools. In keeping up with the changing needs of local industries, business

and education communities, professional courses can then be tailored towards the industries' requirement.

The University also boasts of a comprehensive Sports Complex with a wide range of indoor and outdoor facilities catering to the University population's sporting needs. Outdoor facilities include two multi-purpose sports fields; seven tennis courts; three basketball courts; two volleyball courts; two sepak-takraw courts; two netball courts; one handball court; four squash courts; an Olympic-size swimming pool and a diving pool (currently undergoing renovation); a fitness corner and a 400m polyflex running track. Indoor sports facilities include two badminton courts; a basketball cum volleyball court; a table-tennis room; a gymnasium; a weight-training room; a rhythmic and video/TV room.

National University of Singapore

The National University of Singapore (NUS) came into existence in August 1980 after a series of mergers of predecessor institutions. Its history dates back, however, to 1905 when tertiary education was in the form of a medical college.

The University's modern campus at Kent Ridge, located about 12 km from the city centre, occupies approximately 150 hectares of one of the most scenic areas in Singapore.

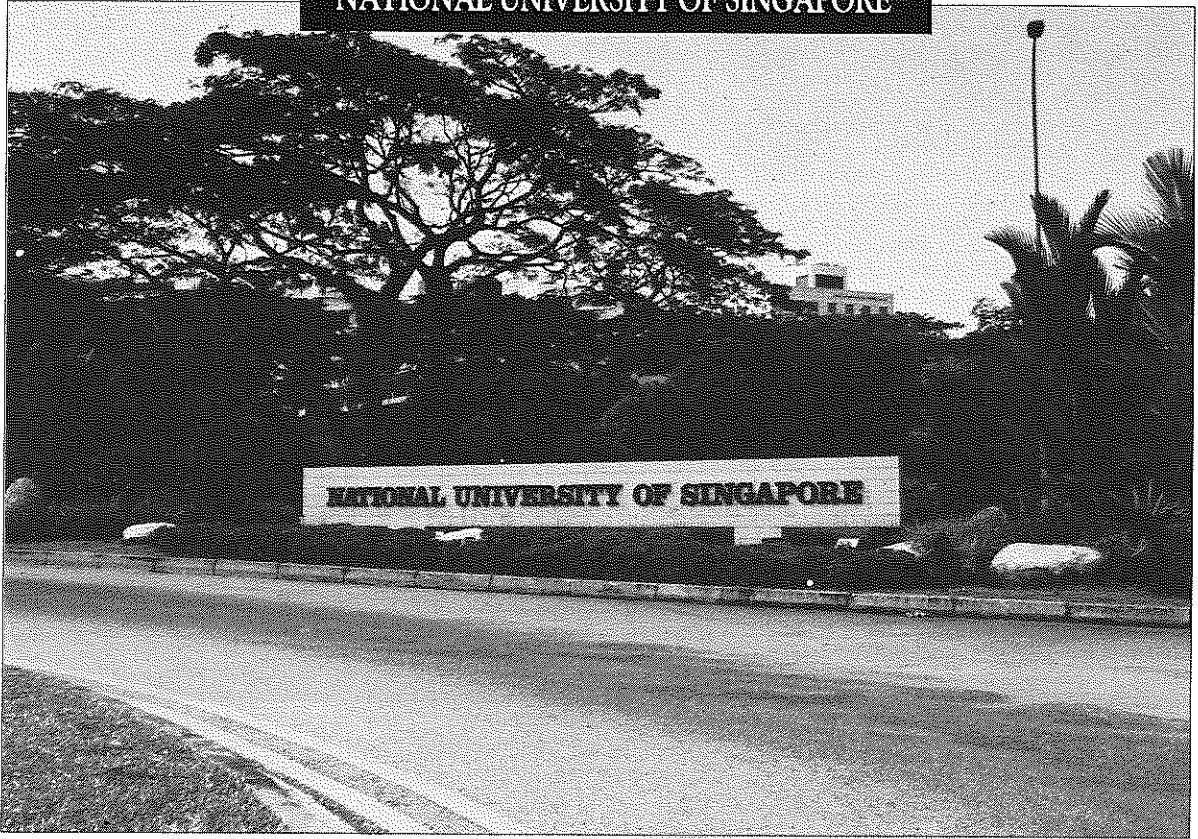

Undergraduate courses are available in eight faculties with more than 50 teaching departments. Postgraduate courses are available in four postgraduate schools, and postgraduate research leading to higher degrees is also conducted in all faculties and postgraduate schools.

Additionally, in line with the national emphasis on the development of high technology and knowledge-intensive economy in Singapore, the University has in recent years established new research institutes such as the Institutes of Systems Science, the Institute of Molecular and Cell Biology, the Institute of Microelectronics and several research centres for other subjects.

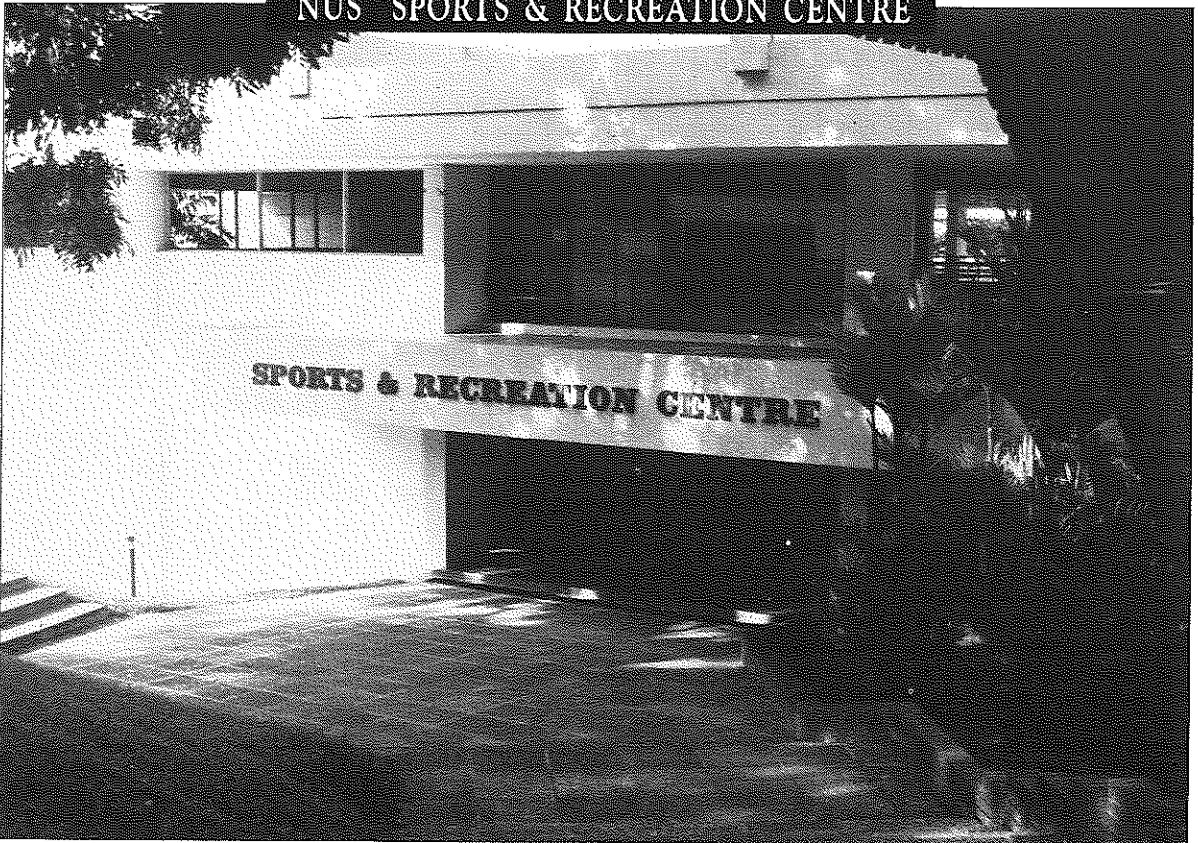

Amenities for students and staff at Kent Ridge include a Sports Complex which provides the University community with the following facilities :-

- a sports hall with five badminton courts and a spectators' gallery for 1,200. This hall can be used for competitive basketball, sepak takraw, volleyball, etc.
